What Our Graduates Say

CHONG KYE YIN

Studying in TAR UC was more than just learning out of textbooks and taking lecture notes. This unforgettable journey made me step out of my comfort zone and transformed me into a more confident person.

My lecturers and tutors were both professional and amiable. They were willing to provide additional guidance for exams and assignments, as well as life advice when my peers and I were having hard times. My programme syllabus equipped me with the fundamental knowledge to prepare for my ACCA examinations. Besides that, I was also given the opportunity to represent TAR UC in national level competitions which were an eye-opening experience.

My study life in TAR UC has been both exciting and memorable. The experiences, knowledge and opportunities given were like stepping stones for me to become a more confident and independent graduate.

People often ask me "What do you like about TAR UC the most?". One of the best things about TAR UC is the family-like atmosphere. The campus was just like my second home as I spent much of my time on campus during my studies. Besides gaining knowledge, TAR UC also encourages us to join extra-curricular activities to gain all the soft skills that are useful not only when we step into the working environment but also in our everyday life.
